Time when the sample was taken

Result

Numerical Result and Reference Value*

In accordance with §1 (2) Öffnungsverordnung, this test confirms the presence of neutralizing antibodies against SARS-CoV-2. Testing was performed using either a neutralization test or an antibody test, which has been correlated with a neutralization test thus meeting the requirements of the document „Specification for Evidence of Neutralizing Antibodies“ („Präzisierung zum Nachweis auf neutralisierende Antikörper“).

This certificate can only be used for its purpose defined by the regulations and through the person named. Improper use or falsification of the certificate can result in criminal ramifications.

Signature and stamp of the medical laboratory

* The reference value corresponds to the threshold value determined by the laboratory for appropriate correlation with neutralizing antibodies.
